

## SANDERS THROWS UP JOB CITY ENGINEER

OFFICE NOT TO BE ABOLISHED UNTIL A MONTH HENCE

## CAUSE OF ACT IS NOT KNOWN

Reported, However, Mr. Sanders Felt Politics Had Been Injected Into Matter.

Although city council's recent act in adopting a resolution abolishing the office of city engineer does not become effective until May 15th, Mr. W. A. Sanders, who has held that position for the past several years, yesterday morning at 8 o'clock handed his resignation to Mayor Godfrey, the same becoming effective immediately after presentation.

Mr. Sanders upon being asked yesterday for a statement as to his future plans, stated that he would be engaged in private engineering work, having already accepted enough engagements of this nature to keep him busy for a long time to come. Other than this Mr. Sanders had nothing to say as to his future plans.

Upon being asked if there was any reason for his throwing up the job of city engineer when the act abolishing the office does not become effective for a month yet, Mr. Sanders declined to make any comment. However, it was currently reported on the streets yesterday that Mr. Sanders was actuated in resigning the position of city engineer at this time because of convictions that city council's act in resolving to abolish the office was a "political move." Mr. Sanders declined to make a statement when asked if this had been the cause of his deciding to resign when he did.

Mr. Sanders is a native of Anderson, being widely and prominently connected throughout the county. He attended the public schools of Anderson and later Clemson college, where he took a course in engineering. For several years he was engaged in his profession in New York city, and later went west, where he made a specialty of street paving engineering. Mr. Sanders had charge of extensive paving projects in the great city of Spokane, Washington, and in other parts of that state. Later he returned to Anderson, and was tendered the position of city engineer, which he accepted.

When the city voted bonds for the recent paving project, Mr. Sanders was placed in charge of the work. Though the services of a consulting engineer were retained, it was generally conceded that Mr. Sanders knew the paving business about as well or better than any consulting engineer who could be found, and accordingly the success of the city's paving project from an engineering standpoint, was, in a large measure, in his hands. That the job is one of the most thorough and first class in every respect, is attested by experts of the highest reputation who have viewed it.

Wherever he goes or in whatever work he engages, the people of Anderson will always experience a sense of gratitude for what he has done for the city and feel under obligations to the young man who devoted his talents so unselfishly and effectively to the city's behalf.

## LINIMENT

## MAKES STATEMENT INTEREST PUBLIC

SECRETARY DOES NOT WANT FRICTION OR MISUNDERSTANDING

## ABOUT CONTRACTS

Supplies for Clemson Encampment—Officials Owe Large Duty to Members of Body.

The following, "A Statement to the Public," is made by Mr. H. B. Fitzgerald, secretary of the Anderson chamber of commerce, and is self-explanatory:

April 17, 1916.

In order that no friction or misunderstanding may possibly arise from the disposition of contracts for supplies to the Clemson college encampment, I wish to place myself clear as to my attitude.

The chamber of commerce is responsible for this encampment and the chamber's officials owe a large duty to its members for the liberal way in which they have responded to this and other public enterprises undertaken for the good of the community generally. That being the case I feel that it is a matter of undoubted duty to the members, when everything is other wise equal, to offer them first any possible benefits to be derived from any enterprise undertaken by the chamber of commerce.

This should not and does not mean that we will use our influence to best of any good citizen of Anderson, but we are sure that all reasonable people, whether they be members of the chamber of commerce or not, will appreciate the justice of our position.

## NINE FREIGHT CARS JUMPED THE TRACK

BLUE RIDGE RAILWAY WAS TIED UP NEARLY ALL YESTERDAY

## NO ONE INJURED

Passengers Had to Transfer Until 5 O'clock P. M. When Track Was Cleared.

As a result of freight wreck on the Blue Ridge railway yesterday morning about 7:40 nine freight cars on Train No. 8 from Seneca jumped the track at the 10 1-2 mile post, about 6 1-2 miles west of the city. The track was not cleared until yesterday afternoon about 5 o'clock and there are still two cars to be put back on the rails.

Because of the wreck, trains had to be run on this end of the line and also at the upper end, passengers transferring to and from.

### "BLACK SAM JONES"

Conducting Meeting in Methodist Church on West Market.

Rev. A. McLees, better known as the "Black Sam Jones," is conducting a ten days meeting in the colored Methodist church on West Market street. The services are held every night at 8:30 and last night the subject of his sermon was, "The New Modern Devil."

Rev. McLees is a native of Anderson county but is now living in Chester. He has made a splendid record as an evangelist.

For neat and attractive Easter cards go to Cox Stationery Co.

## DEMOCRATIC CLUBS MUST HOLD MEETINGS

ARE REQUESTED TO MEET NEXT SATURDAY, APRIL TWENTY SECOND

## ENDORSEMENT

Of President Wilson By Each Club Has Been Suggested—Must Take Foremost Place.

In order to comply with the law all Democratic clubs must hold their meeting on next Saturday and the chairman of the county convention wishes to call attention to this fact. The calls for the meetings are to be made by the secretary and the president.

The following from the editorial column of the Columbia State of yesterday will be of interest in this connection:

"Resolved, That the Democrats of ——— clubs (ward or township) endorse the administration of Woodrow Wilson and instruct their delegates to the county convention to vote for delegates in favor of his re-nomination."

A brief resolution of about that tenor would be adopted, we suppose, without opposition in every Democratic club of South Carolina if it should be introduced.

Let it be introduced. Let South Carolina take the foremost place in the Wilson column.

## MAKING READY PLACE FOR THE ENCAMPMENT

QUARTERMASTER SLOAN ARRIVED IN CITY YESTERDAY MORNING

## SECURED TENTS

From Adjutant General in Columbia and They Will Probably Arrive Today.

Quartermaster Sloan of Clemson college arrived in the city yesterday morning to superintend the making ready of the encampment grounds, which will be located near Mr. Postell Cater's home just beyond where the interurban track crosses the city line on Greenville street. Capt. Sloan will remain in Anderson until May 2nd.

Quartermaster Sloan is now awaiting the arrival of the tents from Columbia. These are secured from the adjutant general and are expected to arrive today. Altogether 134 tents will be used, 95 chronicles, 35 wall tents and two for storage purposes.

Mr. Sloan is well pleased with the encampment grounds.

## CROW ELKHART 30 WILL BE SOLD BY ANDERSON AGENCY

D. P. Sloan & Son to Represent Crow Motor Company in This State.

D. P. Sloan & Son announced yesterday afternoon that they had accepted the South Carolina agency for the Crow Elkhart "30," a five passenger, 30 horse-power automobile, manufactured by the Crow Motor Car company, with headquarters in Detroit. The car is symbolic of the crow, being entirely black. While a few Crow cars have been sold in this state, Messrs. Sloan have secured South Carolina's first agency.

The Crow has many excellent features and no doubt will be a splendid seller. The car will be sold at a popular price, while in its general appearance it easily rivals automobiles selling for 1200 dollars and more. The first shipment arrived in the city yesterday, and many people viewed the car while parked in front of Mr. Sloan's office on Main street.

From wheel base to wheel base the machine measures 113 inches, making it ride with much ease. The mechanism of the cars compares favorably with any on the market, it is said, and this added to its general appearance makes the purchase of the car an attractive proposition. It has an electric starter and other apparatus that goes with the modern automobile.

### HOLY WEEK SERVICES

At Grace Episcopal Church Today at 10:30 and 4:30.

There will be morning and afternoon service at Grace church today, Tuesday before Easter. The Holy Eucharist will be celebrated at 10:30 a. m., and evening prayer and sermon at 4:30.

## JOE SHARPE HURT WHEN DRUG FROM BOX CAR LADDER

Young Switchman Jammed Between Passing Freight Cars and Badly Bruised.

Mr. Joe Sharpe, brakeman on the Blue Ridge railway, about 21 years old, was painfully injured late yesterday afternoon when knocked from the ladder of a box car upon which he was riding. Mr. Sharpe, it is said, was "clearing" the track while shifting near the round house, and was scraped from the rear end of the car upon which he was riding. Two engines were shifting cars on the tracks, and Mr. Sharpe, it seems, made the mistake of misjudging the "clearance," and when the second train passed the switch he was drug from the ladder.

The injured man was rushed immediately to the Anderson hospital, and reports from there late last night were that he was resting well. His injuries consisted of a deep gash in the side of his head, possibly due to compact with the edge of the passing box car, and of bruises caused by his fall to the track. He was unconscious when carried to the hospital.
